

# BIOANALYTICAL *Winter* PROMOTION

Dear present or future sponsor,

It has been quite a hot period for us between summer 2015 and summer 2016 here at pharm-analyt. Due to capacity improvements in documentation we have been able to close many projects by fall 2016. The winter season appears to be cooler, for us also in terms of business, and we are anticipating excess capacity between December 2016 and February 2017.

**However, we are not even considering hibernating!**

Rather, we invite you to join our seasonal promotion: If you order one of the two packages **GINGERBREAD** or **MISTLETOE** between 1 December 2016 and 28 February 2017 you will benefit from our promotional package prices. The GLP assays qualifying for the packages are displayed in a table on page 2:

## GINGERBREAD

min. 1,000 study samples  
max. 5 shipments of study samples  
max. 5 revalidation sequences  
max. 5 analytical events

No costs incurred for calibration standards, analytical report, study protocol or quality control samples

**44 €**  
per study  
sample

e.g. 2,000 study samples >  
88.000 € all-in project price

## MISTLETOE

min. 10,000 study samples  
max. 20 shipments of study samples  
max. 20 revalidation sequences  
max. 20 analytical events

No costs incurred for calibration standards, analytical report, study protocol or quality control samples

**34 €**  
per study  
sample

e.g. 20,000 study samples >  
680.000 € all-in project price

We are looking forward to your response, please do not hesitate to contact us in case of questions!

Best regards,
